Subject: RE: Briefing Paper: Clarksburg, WV Lead Issue
Importance: High

Great, and quick summary. Thank you all. When things calm down a bit, we might be able to rearrange to cut out some of the repetitive information in different sections, but for now, it looks good to me,

Ex. 5 Deliberative Process (DP)

Comment - For the part of the timeline below,

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

- May 10, 2021: RTIA provided EED with the drinking water sample results collected during its in-home Childhood Lead Assessments. Results showed two homes (Bridge Street residence and Tyler Avenue residence) had results above the Lead and Copper Rule lead action level (AL), and results from a home on Stanley Avenue were near the AL. The water system was notified the same day of the lead sample results. EED's Fairmont District Office then requested information regarding known lead service lines and recommended that the water system collect additional water samples.
- May 12, 2021: Clarksburg Water Board (CWB) collected additional samples from the three homes' service lines at the meter and found very high levels of lead in some samples.

- May 20, 2021: RTIA sampled at these homes including a first-draw sample and subsequent samples collected at certain intervals. The highest lead levels were in samples collected after 30 seconds of flushing. Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

- June 14, 2021: EED Fairmont Office met with the water system to discuss and collect additional samples from the meter pits at each of the three previously noted residences.
- June 29, 2021: CWB reported to WVDHHR that it replaced the publicly owned portion of the lead service lines (LSL) at the three homes (Bridge Street, Tyler Avenue, and Stanley Avenue) on June 28, 2021.

Subject: Briefing Paper: Clarksburg, WV Lead Issue

Cathy and Leslie, attached is a briefing paper for the Clarksburg, WV lead issue. This has been a true collaborative effort and provides the most up to date status information. We continue to maintain communication with West Virginia and will update as additional information is gathered.

Kind regards,

Alysa
